"Education is important for the social and economic development of any nation. Education helps individuals make informed choices, join the workforce, and ensure that future generations are educated as well. Additionally, education is also important for an individual's own well-being, as they" can reach their full potential and live a fruitful life. In order to end inequality, it is important that each and every individual in the country is educated and has access to better livelihood opportunities. The most important step is to increase government spending on education. This will help improve the government schools; the increased budget can help in training teachers, providing books and uniform on time, mainiatin better infrastructure in the government schools like clean, functional toilets, hand washing facility, drinking water, and play areas.

### Spreading the value of education in Angara Village

Shree Deo Singh, Chandan Kumar, Ajay Mukherjee were available in the event.
