

Annual Report 2018-19

Making a
difference
around the
society

Perna organize 'Gramya Swachhta Jagrukta Abhiyan' at Bangaon, Khunti, Ranchi. The main aim of this campaign is to create more awareness to the community on the adverse consequences of open defecation practices, To recognize the special needs of different categories of people and promote sanitation needs of specific groups like children, women, adolescents, aged people, disabled, etc. To develop and promote technology options for different geographic locations and conditions of water availability, depth of water table, etc. To promote hygienic behaviour through change in knowledge-attitude practices and skills for improving environmental sanitation. To empower the community and local governments in planning and implementation, strengthening their managerial capacity and responsibility on all aspects of environmental sanitation.

Gramya Swachhta Jagrukta Abhiyan at Maluti, Dumka

Chandan Kumar, Ajay Mukherjee, Rajendra, Vivek Gupta were taken part to organize the camp.

Veccination Programme at Childdag Village, Ranchi

Vaccines are Safe. Vaccines are Effective. Vaccines Save Lives.

The aim of this camp is to find helpful tools and resources on the importance and power of immunizations. We encourage you to use these tools to share messages with your networks.

During flu season, Prerna is urging everyone to be vaccinated against influenza. Immunization is the best way to protect children and families.

Prerna organize vaccination programme at Childdag Village where we cover a large no. of childrens of this village of different ages.

In this programme the local Asha didi and the villagers help us in various ways.

Free Medical Check-up camp in Childdag Village, Ranchi

The aim of this camp is to facilitate better treatments, they also provide free lodging facilities for both the beneficiaries and people tending to them in the inaccessible areas. The idea is to make the healthcare facilities available to one and all by increasing its outreach.

The beneficiaries are provided with facilities related to the diagnosis and cure of illnesses both at diagnostic health camps. They do not just include pathological investigations but gynaecological check-ups, ENT check-ups, sonography and X-ray and dental and eye care is also provided.
